

CoreArmor Complete

Strategic, Business-aligned Cybersecurity and IT Governance

CoreArmor Complete is your unified cybersecurity and governance solution. With oversight from our strategic focused vCISO, you get 24/7 threat detection and response, simplified IT governance, and board-level confidence for better business outcomes.

What does CoreArmor Complete bring to your business?

24x7x365 Managed Detection & Response (MDR)
with proactive threat hunting and automated containment

Dedicated vCISO Oversight: Strategic guidance, roadmap planning, stakeholder alignment, and board-facing reporting

Governance, Risk & Compliance Program Management:
Governance workflows, policy management, risk registers, control monitoring, and audit readiness

Security & Compliance Automation: Ticketing, workflows, audit trails, and evidence collection in one system by one team for complete accountability

Business Alignment & Metrics: Security scorecards, maturity modeling, compliance heatmaps, risk reporting dashboards

Vulnerability Scanning, Pen Testing & Threat Remediation Services: Find and fix security weaknesses before bad actors can exploit them

→ What sets CoreArmor Complete apart?

CoreArmor Complete goes beyond piecemeal services and generic tools. It unifies strategy and execution across cybersecurity and governance – and is driven by ongoing expert engagement, not just automation.
